QUESTIONS BEFORE AN OFFER

1. Does the buyer want illustrated journals/planning sets, and what paper, English layout and price band are required?
2. Is 20-40 units per selected SKU viable, and what is the permitted new-product submission route?
3. Can the supplier confirm samples, current supply, U.S. resale authority, lead time and landed economics?

Still unknown: buying interest, dated year, paper/ink performance, materials, compatibility, pricing and margin. Category overlap is not brand equivalence. Candidates are not an order recommendation.
